IT Enables UCLA Anytime, Anywhere

Foster IT Leadership & Innovation

Develop Digital Citizens

Manage IT as an Institutional Asset

**Summary Statements**

- **IT Enables UCLA Anytime, Anywhere.**
  
  IT facilitates UCLA’s global intellectual impact while enabling scholarly interaction among its communities and collaborators, anytime and anywhere.

- **Foster IT Leadership & Innovation.**
  
  UCLA is recognized as an innovator and leader in the creative application of IT to the effective advancement of its academic mission.

- **Develop Digital Citizens.**
  
  Our faculty, students and staff are ethical digital citizens with the knowledge and skills to use Information Technology to do the best possible research, scholarship, teaching, learning and administration.

- **Manage IT as an Institutional Asset.**
  
  We have an institutional approach to managing IT at UCLA that transcends and magnifies central, local and individual IT capabilities, from the research group or department, to the campus as a whole, and the UC system or broader higher education community.
